

NADIIA MELNYK

Microsoft Dynamics 365 Business Central | Senior Developer & Team Lead | ERP Migration Specialist

Pischelsdorf, Styria, Austria (open to remote) | nadiiamelnyk.work@gmail.com | +43 677 63697012 | [LinkedIn Profile](#)

PROFESSIONAL SUMMARY

Microsoft Dynamics 365 Business Central Developer with nearly 5 years of end-to-end ERP delivery, specializing in NAV-to-BC migrations (delivered 8 successful go-lives across international clients with zero critical post-deployment issues) and AL extension development and C/AL development. Recently promoted to Senior Developer & Team Lead, currently establishing a structured upgrade service line - defining and documenting end-to-end delivery processes, standards, and best practices to ensure scalable and consistent project execution. Actively contributes to ongoing ISV solution support and is part of AI-driven initiatives, exploring how artificial intelligence can enhance BC workflows and delivery quality. Holds six active Microsoft certifications including MB-820 (BC Developer), MB-800 (BC Functional Consultant), and AI-102 (Azure AI Engineer).

WORK EXPERIENCE

D365 Senior Solution Developer, Team Lead | Ciellos - Microsoft Cloud Solution Provider | Styria, Austria (Remote)

Feb 2026 – Present

- Lead BC upgrade & migration projects including add-on installations, web service integrations, and third-party API connectors
- Guide and mentor development team members on BC architecture, AL best practices, and project delivery
- Consult directly with international clients to gather requirements, plan upgrade strategies, and ensure stable go-lives
- Drive technical decisions for multi-ISV environments, ensuring ISV compatibility across BC upgrade chains
- Support and maintain a large ISV solution - implementing new features, resolving bugs, and collaborating daily with Functional Consultants to gather requirements and address functional issues
- Participate in AI initiatives, contributing to the exploration and implementation of AI-driven capabilities within BC solutions

D365 Solution Developer | Ciellos - Microsoft Cloud Solution Provider | Styria, Austria (Remote)

Oct 2023 – Feb 2026 (2 yrs 5 mos)

- Delivered NAV-to-BC upgrade projects (BC 14–BC 27) on-time with zero critical post-deployment issues for international clients
- Improved ISV solution performance by 2.5×, reducing posting routine execution time by 60% via code optimisation and redesign
- Developed custom REST API integration connecting Business Central with third-party ISV applications for automated data exchange
- Designed AI-driven ESG reporting solution with automated context analysis and goal-completion forecasting (Azure AI Foundry)
- Implemented customizations across Finance, Sales, and Purchasing modules aligned with client business requirements
- Mentored a senior developer to independently lead data migration and upgrade projects

MS Dynamics NAV/365 BC Software Development Engineer – Professional | Enavate | Kyiv, Ukraine

Apr 2023 – Oct 2023 (7 mos)

- Led 3 NAV-to-BC upgrade projects (NAV 2009–2018 → BC on-prem & SaaS) with teams of 2–5 developers
- Successfully migrated a legacy Financials 2.9 (pre-NAV) system to Business Central with zero data loss
- Executed complex database migration of ~1 TB data volume with zero downtime
- Developed NAV and BC customizations - creating new objects and modifying existing functionality
- Reimplemented outdated features to modern BC standards (pricing engine, emailing framework replacing SMTP)
- Developed RDLC and Word layouts for reports
- Supported clients during Go-Live phase, including issue troubleshooting and post-deployment stabilization
- Communicated directly with clients for requirements gathering and estimation of requests
- Mentored 3 junior developers to mid-level, achieving 100% promotion success rate

MS Dynamics NAV/365 BC Software Development Engineer – Associate | Enavate | Kyiv, Ukraine

Jul 2022 – Mar 2023 (9 mos)

- Executed full-cycle code upgrades and data migration planning, validation, and deployment for international clients

- Developed NAV and BC customizations - creating new objects and modifying existing functionality
- Reimplemented outdated features to modern BC standards (pricing engine, emailing framework replacing SMTP)
- Developed RDLC and Word layouts for reports
- Bug-fixing and issue troubleshooting across upgrade and customization projects
- Communicated with clients for requirements gathering and estimation of requests

MS Dynamics NAV/365 BC Software Development Engineer – Intern | Enavate | Kyiv, Ukraine

Jul 2021 – Jun 2022 (1 yr)

- Contributed to BC upgrade projects - code upgrade from Navision to Business Central
- Developed NAV and BC customizations - creating new objects and modifying existing functionality
- Developed RDLC layouts for reports
- Bug-fixing and basic issue troubleshooting
